PCS Computer Systems, Inc.
6065 Bay Road
Saginaw, MI 48604

Dear PCS,

We just wanted to let you know how much we appreciate our new Point of Sale, attention to aesthetic details, and quick to response to our questions.

The solution you provided is fast and easy to use. The system ensures orders run smoothly with less chance for mistakes and better customer satisfaction. Order entry and menu changes are a snap. Orders are processed and sent to the bar and kitchen immediately improving customer service.

With the increased staff size, the electronic time card saves me valuable time processing payroll. You made our necessary transition from our traditional stand-alone cash register a pleasant experience.

We are confident we made the right decision in selecting PCS to provide our new POS solution.

Sincerely,

Bruce & Michelle Berger
