

We build strong kids,
strong families, strong communities.

To whom it may concern,

I would like to give an endorsement to the staff at P.C.S. Computer Systems Inc. for the prompt professional way they took care of some computer and internet issues we encountered after switching internet provider. Our provider could not or would not address our problems in a satisfactory manner.

A member told me about PCS and I called and talked with Keith and he told me they would be right over and evaluate our trouble. They replace some inadequate equipment and rerouted our internet connections and got us up and running quickly. All this after our provider tried unsuccessfully for over 4 months to solve the problem.

If in the future we need any of this type of work performed I will not hesitate to contact the people of PCS.

This whole experience was economical and professionally handled.

A very sincere thank you to everyone there.

Robert Hill
